

Part Number: **TC1279-07A**  
Description: **LEFT HAND ADAPTOR ASSEMBLY,  
220 – 100mm DUCT**

## Use/Application:

The 220-100mm left-hand adaptor is used to provide a reducing connection between standard 220mm and 100mm straight ducting, or tee pieces. The adaptor requires standard joiners (Part No's: TC1279-25 & TC1279-27, Telstra No's: 035300515 & 035300514) at the 200mm & 100mm interfaces, which produces smooth & strong joints. Alternatively, slotless joiners (Part No's: TC1279-250A & TC1279-248A) can be used.

## Benefits & Features:

- Includes cover (Part No: TC 1279-08)
- Clips straight into joiners
- Tough, fire retardant material
- Joiners (TC1279-25 & TC1279-27, Telstra No's: 035300515 & 035300514 or TC1279-250A & TC1279-248A); available separately
- Purchase by the unit

## Technical Attributes:

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| <b>Dimensions</b> | 215mm (W) x 105mm (H) x 233mm (D)                   |
| <b>Weight</b>     | 454g                                                |
| <b>Materials</b>  | Fire retardant plastic, Halogen free, UL94-V0 rated |
