

Part Number: **TC1279-11R**
Description: **INTRA SUITE ENTRY ASSEMBLY,
RETROFIT, 220mm DUCT**

Use / Application:

The entry suite is basically a 100mm vertical drop off point in a 220mm horizontal duct system. This is usually installed where a large number of optical fibre cords are to be dropped off below. eg. in optical fibre distribution frames. It provides free flow for the ongoing fibres and strain relief for those exiting down the 100mm vertical section. There are two 220mm horizontal outlets, which use standard joiners (Part No: TC1279-25, Telstra No: 035300515) or a slotless joiner (Part No: TC1279-250A) and a 100mm vertical outlet that uses a standard joiner (Part No: TC1279-27, Telstra No: 035300514). Alternatively, slotless joiners (Part No's: TC1279-250A and TC1279-248A) can be used. These are available separately. This part allows easy retrofitting of optical fibre cords into an existing assembly.

Benefits & Features:

- Includes cover (Part No: TC1279-11D) and lid (Part No: TC1279-12)
- Clips straight into joiner
- Tough, fire retardant material
- Joiners (Part No's: TC1279-25 & TC1279-27, Telstra No's: 035300515 & 035300514 or TC1279-250A & TC1279-248A); available separately
- Purchase by the unit

Technical Attributes:

Dimensions	370mm (W) x 205mm (H) x 232mm (D)
Weight	965g
Materials	Fire retardant plastic, Halogen free, UL94-V0 rated
