

Part Number: **TC1279-329A**

Description: **INTRA SUITE ENTRY ASSEMBLY, 220 x 100 mm DUCT,  
WITH A 220 x 100mm VERTICAL DROP-OFF**

## Use / Application:

The entry suite is basically a 220mm x 100mm vertical drop off point in a 220mm x 100mm horizontal duct system. This is usually installed where a large number of optical fibre cords are to be dropped off below. Eg. in optical fibre distribution frames or fibre termination frames. It provides free flow for the ongoing fibres and strain relief for those exiting down the 220mm x 100mm vertical section. A guide is provided to separate through optical fibre cords from those optical fibre cords being dropped off. There are two 220mm x 100mm horizontal outlets, which are equipped with standard joiners (Part No: TC1279-25, Telstra No: 035300515). The 220mm x 100mm vertical outlet uses either: a standard joiner (Part No: TC1279-25, Telstra No: 035300515) or a slotless joiner (Part No: TC1279-250A); which are available separately.

## Benefits & Features:

- Includes cover (Part No: TC 1279-12)
- Drop-Off clips straight into a 220mm x 100mm joiner, either a standard joiner (Part No's: TC1279-25, Telstra No: 035300515) or slotless joiner (Part No: TC1279-250A); which are available separately
- Tough, fire retardant material
- Two standard joiners (Part No's: TC1279-25, Telstra No: 035300515) supplied
- Purchase by the unit

## Technical Attributes:

<b>Dimensions</b>	420mm (W) x 152mm (H) x 235mm (D)
<b>Weight</b>	1165g
<b>Materials</b>	Fire retardant plastic, Halogen free, UL94-V0 rated
