

Part Number: **TC1279-100**
Description: **CONVOLUTED TUBE, FLEXIBLE, SPLIT**
Ø17mm ID / Ø20 mm OD x 2m

Use / Application:

This is a split, convoluted tube which is used as a flexible take off from 30mm slotted ducting to transmission equipment located in a lower rack. It also fits standard 30mm duct end cap (Part No: TC1279-128) using the knockout tabs provided, or can be attached to any surface with the 20mm CLIP (Part No: TC1279-101). It is recommended for a maximum of 10 fibres.

Benefits & Features:

- Tough, fire retardant material
- Clips straight into standard 60 x 40mm straight or slotted ducting
- Purchase by the kit
