

Part Number: TC1279-13A
Description: MOUNTING BRACKET,
ASSEMBLY, 220mm DUCT

Use/Application:

The mounting bracket provides an adjustable mounting mechanism for the 220mm plastic ducting system. It is basically an M12 threaded metal rod and support bracket that connects straight duct (Part No: TC1279-21A, Telstra No: 035300392) to existing building steel work. A plastic protection tube is included to prevent optical fibres catching in the rod thread.

Benefits & Features:

- Includes: M12 threaded rod, protection tube, support bracket with captive nut, lock nuts & washers
- Corrosion resistant nickel plated finish

Technical Attributes:

Rod	ØM12. x 400 long	Bracket	40mm (W) x 30mm (H) x 250mm (D) (3mm thick)
Weight	700g		
Materials	Mild steel		
Finish	Nickel Plated
