

Part Number: **TC1279-125-45R**
Description: **ELBOW ASSEMBLY UP, 45°,
INTERNAL SLOT, RETROFIT, 220mm DUCT**

Use / Application:

The 45° up elbow is a 220mm angled lead off with an internal slot, so that new fibres can be installed within the elbow and existing fibres removed. This is usually used where an angular duct feed off or an alignment adjustment is needed. There are two 220mm outlets: one is fitted with a special jointer (Part No: TC1279-25SP). The other side can use either: a standard jointer (Part No. TC1279-25) or slotless jointer (Part No: TC1279-250A); which are available separately.

Benefits & Features:

- Provides fibre access and retrofit options
- Provided with a special 220mm duct jointer that provides a smooth transition for optical fibre cords
- Clips straight into jointer (Part No: TC1279-25) or slotless jointer (Part No: TC1279-250A); available separately
- Tough, fire retardant material
- Purchase by the unit

Technical Attributes:

Dimensions	120mm (W) x 134mm (H) x 226mm (D)
Weight	500g
Materials	Fire retardant plastic, Halogen free, UL94-V0 rated
