

Part Number: **TC1279-283A**
Description: **ELBOW ASSEMBLY, INTERNAL
LID, 45° UP, 300mm DUCT**

Also available without the lid, as (Part No: TC1279-283)

Use / Application:

The 45° up elbow is a 300mm vertical lead off with an internal lid, so that new fibres can be installed within the elbow and existing fibres removed, where necessary. This is usually used where cables may be already installed and either an angular duct feed off or an alignment adjustment is needed. There are two 300mm outlets, which use slotless joiners (Part No: TC1279-287A); which are available separately.

Technical Attributes:

- Provides fibre access and retrofit options
- Clips straight into a slotless joiner (Part No: TC1279-287A); which is available separately
- Includes cover, Part No: TC1279-284
- Ribs included for extra strength
- Tough, fire retardant material
- Also, available without cover, as Part No: TC1279-283
- Purchase by the unit

Technical Attributes:

Dimensions	312mm (W) x 135mm (H) x 124mm (D)
Weight	300g
Materials	Fire retardant plastic, Halogen free, UL94-V0 rated
