

Part Number: **TC1279-118-07**  
Description: **MITRE BOX, 30mm and 50mm DUCT**

## Use / Application:

This mitre box is a simple mechanical means of preparing a shortened length of 30 and 50mm duct for connection to another standard part. e.g. elbow, cross connector, etc. The mitre box ensures that a true 90° cut is achieved with a panel saw (Part No: 100 x 060) on each of these duct sizes.

## Benefits & Features:

- Enables straight cross cuts in both 30 and 50mm duct
- Panel saw (Part No: 100 x 060); available separately
- Purchase as a unit

## Technical Attributes:

<b>Dimensions</b>	150mm (W) x 70mm (H) x 64mm (D)
<b>Weight</b>	118g
<b>Materials</b>	Mild steel gold passivated finish
