

Part Number: **TC1279-191KIT**  
 Description: **DUCT FIBRE STORAGE KIT,  
 OFFSET, 220mm DUCT**

## Use / Application:

This kit allows excess patch cord lengths to be stored in the optical fibre duct system in an organised manner. It is usually fitted offset to a 220mm-duct system, so that excess patch cord length can be stored away from the main duct run. It can also be used at the end of a duct system. The unit comes with lids to provide complete protection, for the stored optical fibre cords, and can be assembled in either left or right hand orientation.

## Benefits & Features:

- Provides safe storage for excess patch cord lengths
- Clips straight into the end of a 220mm-duct system using either a normal or slotless joiner
- Tough fire retardant material
- Joiners either: standard joiner (Part No: TC1279-25) or slotless joiner (Part No: TC1279-250A); available separately
- Purchase as a unit

## Technical Attributes:

<b>Dimensions</b>	675mm (W) x 105mm (H) x 602mm (D)
<b>Weight</b>	3.6kg
<b>Materials</b>	Fire retardant plastic, Halogen free, UL94-V0 rated
