

Part Number: **TC1279-21ASN**
Description: **DUCT AND SNAP - ON LID ASSEMBLY,
220mm DUCT**

Use/Application:

The 220mm duct lid (Part No: TC1279-22SN) is a snap fit onto 220mm straight duct (Part No: TC1279-21). The lid is quickly and easily fitted and removed from 220mm straight duct, when required. Both the lid and duct are made of tough Noryl plastic with a non-halogen fire retardant. The duct connects to other duct sections and various bends, adapters, etc, using either: a standard joiner (Part No: TC1279-25: Telstra S 353/00515) or a slotless joiner (Part No: TC1279-250A); which are available separately. A 220mm duct carries up to 800 x Ø3mm optical fibre cords to a depth of 50mm, without causing excessive crushing or stress on them. This is the maximum recommended number of optical fibre cords for 220mm duct.

Benefits & Features:

- Cover (Part No: TC1279-22SN), snaps onto 220mm duct (Part No: TC 1279-21); included
- Clips straight into joiner
- Tough, fire retardant material
- Joiners (Part No: TC1279-25; Telstra: S 353/00515 or Part No: TC1279-250A); available separately
- Purchase by the unit

Technical Attributes:

Dimensions	Lid: 235mm (W) x 15mm (H) x 2000mm (D)
	Duct: 235mm (W) x 115mm (H) x 2000mm (D)
Weight	Lid: 1.99 kg; Duct: 2.90 kg; Duct & Lid: 4.89 kg
Materials	Fire retardant plastic, Halogen free, UL94-VO rated
