

Part Number: **TC1279-23ASN**  
Description: **DUCT AND SNAP – ON LID ASSEMBLY,  
100mm x 100mm DUCT x 2m**

## Use / Application:

The 100mm duct lid (Part No: TC1279-24SN) is a snap fit onto 100mm straight duct (Part No: TC1279-23). The lid is quickly and easily fitted and removed from 100mm straight duct, when required. Both the lid and duct are made of tough Noryl plastic with a non-halogen fire retardant. The duct connects to other duct sections and various bends, adapters, etc, using either: a standard joiner (Part No: TC1279-27: Telstra S 353/00514) or a slotless joiner (Part No: TC1279-248A); which are available separately. A 100mm duct carries up to 400 x 3mmØ optical fibre cords to a depth of 50mm, without causing excessive crushing or stress on them. This is the maximum recommended number of optical fibre cords for 100mm duct.

## Benefits & Features:

- Cover (Part No: TC1279-24SN), snaps onto 100mm duct (Part No: TC 1279-23); included
- Clips straight into joiner
- Tough, fire retardant material
- Joiners (Part No: TC1279-27; Telstra: S 353/00514 or Part No: TC1279-248A); available separately
- Purchase by the unit

## Technical Attributes:

<b>Dimensions</b>	Lid: 115mm (W) x 15mm (H) x 2000mm (D) Duct: 120mm (W) x 105mm (H) x 2000mm (D)
<b>Weight</b>	Lid: 1.16kg; Duct: 2.01kg; Duct & Lid: 3.17kg
<b>Materials</b>	Fire retardant plastic, Halogen free, UL94-VO rated
