

Part Number: **TC1279-250A**
Description: **SLOTLESS JOINER, 220mm DUCT**

Use / Application:

The slotless joiner is used to link standard 220mm straight ducting with itself or any of the other 220mm components; with which it provides a smooth & strong joint. Typical other fittings are: horizontal or vertical elbows, cross connectors, tees, etc.; which require a joiner at each interface. The slotless joiner incorporates three metal spring brackets, which securely grip with the flat face of the mating 220mm duct components. This ensures that a positive, permanent connection is achieved. The slotless joiner is easily and simply locked or released by turning the locking slot through 90°; using either a coin or wide bladed screwdriver.

Benefits & Features:

- Quickly installed on 220mm duct components, to achieve a positive connection
- Quickly released, using either a coin or wide bladed screwdriver
- Incorporates 4 spring brackets, that make a permanent connection between 220mm duct components
- Tough, fire retardant material
- Purchase by the unit

Technical Attributes:

Dimensions	50mm (W) x 100mm (H) x 246mm (D)
Weight	116g
Materials	Fire retardant plastic, Halogen free, UL94-VO rated
