

Part Number: **TC1279-57D**
Description: **END SUPPORT BRACKET FOR
100mm x 100mm DUCT**

Use / Application:

The duct end bracket is used to fasten the open end of a standard 100mm straight duct to the top of a rack. It is fitted with double sided tape that secures and holds the end bracket to the rack. The end bracket simply snaps into the end duct slots. It can be removed with a screwdriver if necessary. For a stronger holding connection to the rack, 4x Ø3.5mm holes are provided for securing screws or rivets.

Benefits & Features:

- Provides a simple and strong end connection/support for 100mm duct to the top of a rack.
- Easy to fit, clips straight into 100mm duct end.
- Long life connection achieved
- Can also be screwed to the rack top if necessary. [Screws available separately]
- Tough, fire retardant material
- Purchase by the unit
